

HBB - A4 and HBB - A3 Single Roller Glue Binding Machine

HBB - A4 / HBB - A3 series, simple and effective. Sun milling cutter with small milling cutter make the perfect milling and book binding. Adjustable function in clamp table can work on the bookcover in different thickness. The maximum thickness of book is up to 6 cm(HBB-A4 series 5 cm). Multi parameter setting, with a stable performance. Ideal for Digital and Offset Printers.

Product Features

Automatic Collection for Scraps of Paper

The high power fan on the back of the milling cutter will absorb the paper scraps to the collection bag under the cabinet, which greatly reduces the situation of the paper scraps flying

Erect Clamping Table Design

Stable erect clamping table design, the clamping surface effect is good, suitable for various thickness cover, book shaping effect is better.

Clamping Table Angle Adjustment

It is suitable for different thickness of book and the angle of the book spine can be adjusted as per customer's demand.

20 teeth sun milling cutter

The golden combination of 20-teeth solar cutter and small milling cutter ensure the penetration of the glue, and no page off. (HBB-A4 is 15teeth)

Single Roller for Gluing

With special patterns on the glue roller which ensure the glue is smooth. The thickness of the glue layer can be adjusted by a knob.

Product Specifications

Model	HBB - A4	HBB-A3
Control panel	LCD	LCD
Max. binding length	310mm	425mm
Max. binding thickness	50mm	60mm
Binding efficiency	200-400 books / hour	200-400 books / hour
Milling cutter	Solar milling cutter + small milling cutter	
Duration for glue melt	<25 min.	<25 min.
Glue Roller	Single Roller	Single Roller
Side glue	No	No
Voltage / Power	AC220V±10%50Hz 1.5KW	AC220V±10%50Hz 1.5KW
Gross weight	180 kgs	215 kgs
Packing size	1190*680*1070mm	1590*750*1100mm
