

## HWPB 18 - Hitech's latest Wiro Punching and Binding Machine

**HWPB-18** is a heavy duty electric wiro punching and binding machine. The state of art design and robust engineering provides a rugged machine that can deliver large volumes of wiro/spiral products.

**HWPB-18** has an advanced motor reducer and special-made mechanical clutch ensures motor can run continuously. Punching is controlled by foot pedal which is easy and safe for operation.

Interchangeable die is easy and fast. Different die options are available for various jobs. Wiro Closing is an integral part of the machine.

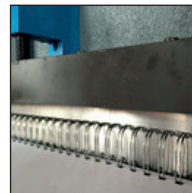

Install the activity bed plate

Select the wire closing with the required Adjust the height of the wire closing to the request

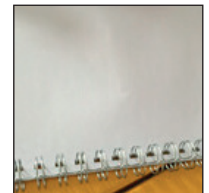

Getting through the hole with the suitable wire

Put onto the wire closing (the opening direction to the inside)

Depress the footpedal, finished

Effect

### Product Features

- Interchangeable dies. Easy and fast to change.
- Wiro punching and wiro closing are integral part of the machine, saves space.
- Foot pedal operation for operator safety and fast production.
- All available Wiro sizes of 3:1 and 2:1 can be punched and closed.

### Product Specifications

Punch thickness (Cover thickness)	0~4 mm
PVC thickness (PE thickness)	0~1mm
Wire closing	3/16"~1 1/2" (4.8~38 mm)
Max punch width	430mm
Adjustable side margin	2.5-6.5mm
Punch speed	150 punch / minute.
Power voltage	AC 220V-240V, 50HZ A110V- 120V, 60HZ
Dimension	680 x 710 x 1120 mm
Machine weight	165 KG
Motor power	0.75 KW
