

Maxit - Adhesive System

Motorized Roller Coaters

- Automatically warms up in 55 minutes.
- Run your print through and it receives a smooth, even coating.
- Runs at 4 seconds per ft.
- No clean up, no maintenance at all.
- Will not harm digital prints.
- Available in 12.5", 24.5" and 36.5" coating widths.

RP Hot Melt Adhesive

Designed for doing album book blocks, duplexing, business cards and invitations.

- Contact adhesive.
- After coating media, mount within 3 minutes.
- Provides a permanent bond to all surfaces.
- Provides a stiffer bond than MXII.
- Cures over time so when trimming stacks of paper, reduces transfer to cutting blade (MXII transfers to blade).
- Comes in pillows.

Great for Adhering:

- Hard covers
- Duplexed business cards
- Wide format prints
- Custom invitations
- Album book blocks
- Presentations
