Roll Laminator -13”

Introduction

Latest state of the art model with high capacity rolls feeder. RL 13 can take rolls up to 500 meters (30 microns) and you can do 1 side or 2 side thermal lamination. With table top design the speed offered is up to 5 meters per minute or 10 13x 19” sheets per minute gives you high productivity at affordable price. Advanced features ensures high productivity, ease of operations and high quality output.

Our Products: A3+ Programmable Card Cutter / Foil Fuser/ Folding Machine/ Thermal Roll Laminators / Desktop Binding / Perfect Binding / Paper Cutter / Wiro Punching / Wiro Closure / Spiral Punching / Spiral Inserter / Index Cutting / Thumb Cutting / Butterfly Binding Machine/ UV Coater / DigiBinder / Stapling & Folding / Drill & Bind / Manual Crease/Round Edge Corner / Creaser cum Perforator / Lay Flat Album Binding Machine And many more to come

Feature:

- Latest State of the art design
- Sensors for feeding of paper and auto stop for no paper.
Technology to stop film rolling over on the rollers;
- Patent of auto-disconnecting; reduce the manual labour
- Patent of perforating technology. Trims films from the side and avoid extra process post lamination
- Spindle for cold lamination with tension adjustment knob.
- Digital control for speed; adjustable for pressure of lamination; meet different demands;
Anti curl rollers for RL 35 DC
- Patent of anti-curler with 18 level and cooling fan;
- 1 inch and 3 inch film core saves on film cost and roll replacement time.
- LCD; it's convenient for setting and operation;

Specification:

ITEM	RL 13
Feeding width	130-350 mm
Feeding length	110-999mm
Thickness	80 -400 gsm
Speed	Up to 3 meters/minute
2 Side laminate	Yes
Anti Curl gear	Yes
Take Up roller	No
Perforation	No
Auto Sheet cutter	No
Power	230V 50 Hz
Dimension	46 x 60 x 51 cm
Weight	45 Kgs
