

### WOB 420

The machine is widely used for binding double loop wire note book, desk calendar and wall calenders etc. It can bind from size 1/4" to 1 1/4" without changing the binding tools, It will cut convey and close the wire then drop on a conveyor. It increases the production efficiency and lows the cost remarkably.

#### Product Features

- Controlled by computer ,easy to setup.
- No need to change the binding tool as the binding height is adjustable for all the size.
- From 1/4" to 1 + 1/4" it can be used to bind books or calenders with overhanging cover.
- Option for calender hanger feeder system and conveyor.

Product Specifications	
Technical data	CB-420
Max binding size (mm)	420mm x 420mm
Min binding size (mm)	70mm x 100mm
Wire binding capacity	1/4" ~ 1 1/4"
Binding thickness capacity	1.5mm ~ 27mm
Binding speed	600~1100 Books / Hour
Power	AC220V/1PH/50(60)HZ
Machine weight (kg)	255KG
Max hanger length (mm)	380mm
Compressed air pressure	6~8 Bar
Dimension	2220mm x 1000mm x 1800mm
